Hey QA Ninja,

Developers claim to fix all bugs you reported in version 1 and have added the Balance enquiry module to version 2.

Go ahead and re-run your failed test cases.

Link to version 2 of the site

http://demo.guru99.com/V2/

Use the login credentials you have already generated for version 1.

Also, check the balance enquiry module for the first time!
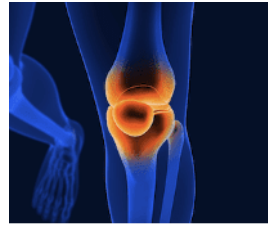

See you tomorrow!

Happy Testing

Team Guru99

PS: Tomorrow you will get Bugs identified by our experts. You can compare your bugs with that of our experts and detect bug leakages
